financially driven business decisions in real-time?

- A.customer service (CS)
- B.enterprise resource planning (ERP)
- C.customer relationship management (CRM)

D.sales force automation (SFA)

Correct:B

NO.5 A company has an existing traditional TDM PBX and wishes to implement a unified communications project. At the present time it is more feasible to add a second VoIP-enabled PBX

into the existing configuration to complete the project rather than replace the existing system.

To

make this system work as designed, the company must purchase and configure which other piece

of hardware for this solution?

A.Router

B.IP gateway

C.New telephone sets

D.This solution is not possible

Correct:B

NO.6 Which unified communications application, when implemented, can successfully solve the time

value of money business challenge for bank and financial institutions attempting to provide customers with faster loan approvals?

A.self-service websites enabled with IM chat

B.real-time unified messaging with key loan personnel

C.reservation-less audio conferencing

D.real-time collaboration with key loan personnel

Correct:D

NO.7 Assuming the customer and all of the project team members are located in the same city, which

unified communications enablement application can have the greatest impact on increasing the

gross profit margin for a fixed-fee professional services project with multiple project team members?

A.Real-time collaboration can provide faster group decision making, streamline project tasks and

deliverables that are shared, and allow the project to be

B.

C.Audio and video conferencing can reduce the travel and expense overhead for fixed-fee

professional

services projects when team members must meet for

D.

E. Presence and availability can help increase productivity by identifying which project team members are

reachable to answer immediate questions.

F. IM Chat can provide real-time answers to immediate project questions to enhance productivity for the

project team.

Correct:A

NO.8 When paired with a Communication Server 1000 PBX, the Microsoft Office Communicator client

uses a feature called twinning or dual-forking. What is twinning?

A. a type of conference call

B. two telephones sharing a single extension number

C. telephone set cloning

D. two users sharing an extension number

Correct:B

NO.9 In some cases IP gateways are required in a pure IP PBX environment. Where in the network

would the IP gateway be placed, if one were required?

A. between the IP PBX and the carrier

B. between the IP call server and its associated gateways

C. between the IP PBX and any firewalls

D. an IP gateway is not required in a pure IP PBX solution

Correct:A

NO.10 Given that several VoIP protocols have been used for communications between end-point

devices, which protocol is versatile enough to act as the signaling protocol for mobile, fixed, and

software-based end-point devices?

A. MGCP

B. SIP

C. H.323

D. SGCP

Correct:B
